

# what 's in the air you breathe

dead skin cells  
 insect residue  
 mold spores  
 SMOKE  
 dust mites  
 pet dander  
 VOC'S  
 allergens  
 pollen

**AIR PURIFICATION PRODUCTS**  
 All our air purifier products now contain the new patent-pending quad-nano catalyst coating which lowers the ozone levels to .01 - .02 ppm in your home giving you spring fresh air all year round. *This technology has been tested by West Texas A & M and proven to remove allergens and other contaminants from the air.*

**Don't be misled** by HVAC Co's. installing Germicidal UV lights, which have little to no effect on gases, vapors, odors and allergens in your home. West Texas A&M has completed a study that proves our Dux Deluxe Technology "APHCO" UVX unit reduces Aero Allergens and Pollutants within 72 hours in your home. Full 3 year warranty.
